Lumina ONE

The Lumina One is an all-in-one energy generation and storage system that integrates a powerful hybrid inverter with modular LiFePO4 battery storage and high-power solar panels for seamless power independence. Designed for total versatility, it features intelligent WiFi monitoring and a robust 120A MPPT controller to maximise solar efficiency, even in our harsh Fijian environments. Whether connected to the grid or standing alone, the Lumina One delivers energy freedom to keep your home running smoothly.

Key Features

- WIFI & GPRS available for IOS and Android monitoring
- Solar inverter (on/off Grid)
- Built-in Lithium battery automatic activation
- Built-in 120A MPPT Solar charge :
  - max 6200W (4.2KW), max 6500 (6.2KW)
- High PV input voltage range (60~500VDC)
- Built-in anti-dust kit for harsh environment
- Smart battery charge designed to optimise battery life
- Inverter can run without battery
- Transparent pricing module, no hidden fees
- Free delivery
- Installation options to suit your budget
- Finance options available through third party providers
- Local warranty and ongoing support

Inclusions

Lumina ONE

The Lumina One system is available in two configurations and includes everything you need for safe, reliable energy generation and storage. To complete the package, we provide high-efficiency GCL branded monocrystalline solar panels designed to maximise power generation in all conditions.

Inclusions

- 5.12 kW & 10.24 kW Batteries
- 475W Solar Panels
- 6.2 kWh Inverter
- Free Delivery*
- Installation Options Available
- 5 Year Warranty
- Suva-based Support Team
